

Rathbone SICAV Multi-Asset Strategic Growth Portfolio

Investment objective

The objective of the sub-fund is to seek to achieve a long term total return of between 3% and 5% above the UK Consumer Price Index (UK CPI) over a minimum five year period. The sub-fund has a targeted risk budget of two thirds of the volatility of global equities as measured by the MSCI World Equity index. There is no guarantee that the sub-fund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.

Under normal circumstances the sub-fund invests mainly in shares from the UK and elsewhere and in other securities, including bonds and money market instruments. The sub-fund will ordinarily invest in these securities directly, but may gain exposure to them by investing in other collective investment schemes.

Information notes

CET - Central European Time

[†]Mid market value

[^]The OCF includes the charges for the underlying funds held in the product. From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges.

^{**}(Targeting <66%).

UK Consumer Price Inflation figures quoted with a one month lag. SICAV L-class shares were launched in May 2016. *Performance is shown for SICAV L-class accumulation shares, which were launched on 15 July 2016, total return net income reinvested. The volatility as a percentage of the MSCI World Index figures are calculated using monthly data. ***Volatility, Sharpe Ratio and Maximum Drawdown given on a 3 year rolling basis. Sharpe Ratio calculated using Risk Free Rate of 0.64 (based on 3 month LIBOR).

Rathbone Multi-Asset Strategic Growth

Portfolio Benchmark: Our benchmarks are calculated on the rate of change of the CPI index, over different time periods (e.g. if we were calculating year to date figures in January 2013, we would look at the percentage change from December 2012 to the end of January 2013). So we take CPI to the current value, and add on the 5% prorated over a year (roughly 0.42% per month). If the CPI Index benchmark were to fall, more than the amount pro-rata, the benchmark year-to-date will be negative, even though inflation as reported by the media (calculated specifically as a 12M rate of change), remains positive.

Source and Copyright Citywire: David Coombs is A rated by Citywire for his three year risk adjusted performance for the period 31.08.2017-31.08.2020.

When operating in the EEA, Rathbone Unit Trust Management works in partnership with a tied agent. In Europe we market our funds through Rathbone Funds Advisers, Unipessoal Lda. ("Rathbone Funds Advisers") a company acting as a tied agent to Carne Global Financial Services (Europe), Unipessoal Lda. ("Carne Global") which is an investment advisory firm authorised under MIFID II and supervised by the Portuguese Securities Market Commission - the CMVM (Comissão do Mercado de Valores Mobiliários). Rathbone Funds Advisers is registered in Portugal and has been appointed by Carne Global to provide investment advisory services on its behalf in relation to financial instruments, in particular units or shares in undertakings for collective investments.
