

# OneLife's ESG commitments

## Our Vision

## Sustainable Life

For over 30 years, OneLife has been working with partners and clients to create a sustainable future based on responsibility and trust. These values drive how we do business and emphasise the importance we place on performance of all types, non-financial as well as financial.

We see it as our clear responsibility to conduct our activities with sustainability and strong governance in mind, putting the well-being of our partners and clients, our workforce, our community and the wider world at the centre of our ambition to respond to today's social and environmental challenges.

We organise our vision around 3 main areas:
