

FEIFA ANNUAL CONFERENCE

24 MAY 2024, LONDON

SUPPORTING ADVISERS IN EUROPE

Delegates enjoyed a day of presentations covering areas such as the benefits of leveraging asset management infrastructure for clients, the impact of politics and elections on markets, key global advice model trends and dynamics across markets, essential requirements for the globally mobile client, professional advice and the commitment to consumer duty, the present pension and retirement framework in Europe, and the key threats and opportunities that will affect advisers and levels of future optimism in the industry.

And as in previous years, presenting companies included major industry names.

A large group of people, mostly men in business suits, are seated at a long table in a conference room. They are all looking towards the left side of the frame, suggesting they are listening to a speaker. The lighting is dim, with a blueish tint. In the foreground, a woman with blonde hair, wearing a brown jacket and a watch, is resting her chin on her hand. To her right, a man in a light blue shirt and dark vest is also looking forward. On the table in front of them are several water glasses, a blue cup with the text 'Sip Savour Repeat', a pen, and some papers.

As always, the key decision makers from the majority of FEIFA member companies travelled from across Europe to attend the Conference
